

Smash Tennis is a professional tennis coaching company committed to capturing and nurturing young talent, improving exercise for adults and supporting the local economy.

Our vision is to make tennis accessible to everyone, irrespective of their background, race or social standing. And we also support our nominated charity, Breakthrough Breast Cancer, through our work.

4 Momentum are our trusted business advisers, engaged from day one to help steer us through the many challenges and opportunities we've encountered to get where we are today.

But it doesn't stop there. Looking into the future, we have ambitious expansion plans to support British Tennis, feeding in to the Lawn Tennis Association's 'Grass Roots' scheme as well as supporting the UK's professional players, helping them become champions on the World Tennis scene.

We have chosen 4 Momentum to work with us because of their expertise, ability to turn theoretical advice into tangible practical deliverables and ethical approach to business. We're totally confident in the continuing success of our business relationship!

Colin Piper, MD, Smashtennis UK
